## SUMMARY

Full-stack MERN developer with over 3 years of hands-on experience building web applications. I am already highly familiar with how production-ready applications work from frontend to backend, meaning I do not need to learn the basics from scratch. I have built and deployed several full-stack projects and am currently looking for a great company environment. My goal is to find an opportunity where I can further improve my skills as a software engineer while actively contributing to the team's success.

## SKILLS

JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, HTML5, CSS3, Node.js, Express.js, REST APIs, MongoDB, Cache, Google Gemini API, Groq API, JWT, Git, GitHub, Docker, Vercel, Render, Postman, CI/CD, MVC Architecture, Progressive Web Apps (PWA).

## PROJECTS

*(Note: Below are a few of my successfully deployed projects. I have built many other local projects to practice and refine my skills. For complete details on all my work, please visit my personal portfolio website linked at the top).*

- **Unity Drop (Final Year Project):** A fast, full-stack platform connecting patients with blood donors using AI matching. Built with Next.js, Express, MongoDB, and Gemini API. Includes secure role-based access and an admin dashboard.
- **Universal QR Hub:** A 100% offline-capable web app for creating custom QR codes and barcodes securely on the client side without storing user data. Built with Next.js and Tailwind. Live: [universal-qr-hub.vercel.app](https://universal-qr-hub.vercel.app)
- **The Kaptaan Legacy:** A biographical web application featuring a dual-engine AI fact-checking system and enterprise-grade security against copying. Built with React 19. Live: [the-kaptaan-legacy.vercel.app](https://the-kaptaan-legacy.vercel.app)
- **Personal Portfolio:** A highly optimized personal website with advanced SEO and fast asset delivery. Built with Next.js and Cloudinary. Live: [muhammadanzamuneebkhan.vercel.app](https://muhammadanzamuneebkhan.vercel.app)

## EXPERIENCE

**Freelance Web Developer** | Self-Employed (2023 – Present) Developed and deployed custom websites, landing pages, and portfolio applications using React.js and Next.js. The majority of these projects were successfully built for family members, friends, and a few clients through personal references. Handled the complete process from understanding requirements to UI design, development, and live deployment.

## EDUCATION

**Bachelor of Science in Information Technology (BSIT)** | 2022 – 2026 (Expected) Govt. M.A.O. Graduate College (Affiliated with Punjab University), Lahore, Pakistan Final Year Project: Unity Drop
